Docket No. F-8196

JAN 16 2007

Ser. No. 10/816,012

REMARKS

Applicant expresses appreciation to the Examiner for participating in the Interview of January 12, 2007. There, it was confirmed that claims 46 and 47 are allowed and it was determined that claims 6, 8, 20, 22, 44 and 45 would be allowed if Claim 6 was amended to include the limitations of Claim 2, Claim 8 was amended to include the limitations of claims 2 and 4, and the following amendments were then made to amended claims 6 and 8 and previously presented Claim 45:

“an urging member to be interposed between the outer gear support and a support body side is provided for biasing against rotation of the outer gear support to interfere to rotation with an urging force for the outer gear support that rotates in the same direction at a time of the rotational driving by the rotary actuator...”

The above amendment was supported by Figure 16 and disclosure on page 43 of the specification.

Each of the above measures has been taken by Applicant so that a notice of allowance effecting the remaining claims is respectfully requested.
